MOBILE APPS FOR INDUSTRIES

D4ECLUB is a user-friendly mobile app available for free download from play store or app store, that connects industries, institutions and individuals, globally.

Features:

- For industries, get orders from colleges and other industries; recruit engineers and professionals; use college infrastructure for technology/ product improvements; identify foreign partnership and export opportunities.
- For institutions, the app helps in identifying in-plant training and placement opportunities; getting project ideas and start-up support; industry interaction and consultancy; sourcing expert speakers and government funding.
- For students, the app aids in getting project ideas, in-plant training and placement. Similarly, the app helps career seekers get jobs meeting their expectations. For experts/consultants/entrepreneurs, it helps in getting consulting assignments, guest lectures, mentorship & advisory roles, and government funding.

About the company: D4E is an initiative by a group of professionals, who believe in using digital technology to network engineers across the world. D4E presents D4EClub as an online platform to network engineers and connect them in a social impacting initiative at free of cost.
